SUMMARY

I am dynamic and motivated computer science student pursuing Full-Stack Development. I have knowledge of HTML, CSS, JavaScript, Java, PHP, MySQL. I am enrolled in a 3 months of Full-Stack Development program at AU-Ignite Future Skills, which helps me to deepen my coding skills in MERN stack, and other languages like PostgreSQL, BootStrap, UI. I am focused on learning new technologies like Springboot and multiple AWS services as I grow in my career and get better with my skill set.
